Help Us Help The Hurting Success Stories

One Woman's Story...

"Counseling has helped me set boundaries in my life. It has helped me overcome the grief of loss. Talking about what hurts and having someone who is non-judgmental has made a tremendous difference in my life. Marty has helped me realize that God is in control of my life. Marty made a difference for me in so many ways. I am so much stronger now than I was. I see who I am, for the first time in my life I see me, and I realize that I am not a bad person, that other people do not define me, but that God defines who I am. The healing that has come into my life through counseling has been amazing."

One Family's Story...

We provided professional Christian counseling for a family that had been devastated by unemployment. The

mother had lost a part-time job, the father's business had failed. They were having severe marital discord and depression as a result of the financial stress. They had two children, and the mother was pregnant with a third. The children were having severe behavior problems and their grades were dropping as a result of the marital tension. After receiving professional Christian

Counseling at no cost to them, the marriage stabilized, the husband was able to find a job and is now excited about training for another line of work.

The family's stability improved dramatically, the children's grades are much better, and they have learned healthy ways to communicate and address stress and conflict.

A Businessman's Endorsement...

"I've personally seen the positive effects that Healing Heart Counseling Center has made on individuals, and look forward to even more success stories as a result of the *Help Us Help The Hurting* initiative."

The Problem:

Families Hurt More During Hard Economic Times

- A Recent U.S. Census reveals that a greater percentage of Americans are living below the poverty line than at any other time in the nation's history; 1 in 6 or 46.2 million.
- Those without health insurance is now 49.9 million, the most in over two decades.
- Louisiana has the second-highest Poverty Rate in the United States!
- Louisiana Poverty Rate = 18.7 %
- Louisiana Children in Poverty = 27.3%
- Unemployment in Shreveport-Bossier City is 6.9% (~17,940 unemployed)
- Divorce Rates are higher where median income is lower.
- When divorce occurs, children & families suffer greatly, both financially & emotionally.
- There are already 19 million Americans with Major Depression, 18 million alcoholics, 4 million drug addicts, and 16 million sex addicts. These numbers are only going to increase in the months to come.

Help us work to prevent divorce, treat depression & addictions, and reduce family conflict.

Problems Families & Couples are Facing:

- o Financial stress, foreclosure, bankruptcy
- o Marital & Family Stress
- o Divorce
- o Depression, Anxiety & Addictions
